

Technical Communication

We translate complex technical systems into clear, structured, and visually engaging content.

- Convert manuals into training-ready media
- Develop instructional scripts
- Present technical systems for workforce training and public communication

Differentiators

- Unique combination of creative media production and technical documentation expertise
- Proven ability to translate complex engineering concepts into clear, usable deliverables
- Experience supporting high-performance aerospace environments
- Agile, scalable support for both creative and technical contract needs
- Strong attention to compliance, structure, and deliverable quality

Past Performance

- Technical Documentation Specialist (7 Years)
- Tsunami Tsolutions – Supporting Pratt & Whitney
- (Authoring ITAR-controlled and DFARS-compliant aerospace documentation)
- Producer – Back by Popular Demand (Award-Winning)
- Executive Producer – And She Remembered... (In Development)

Company Overview

BRICE-PRODUCTIONS LLC is a multidisciplinary media and technical services firm specializing in film production, technical documentation, and engineering support services. We deliver high-quality visual storytelling and structured technical documentation to support government agencies, aerospace programs, and commercial clients. With a foundation in both creative production and systems-level documentation, we bridge the gap between complex technical environments and clear, effective communication.

Core Capabilities

- Motion Picture & Video Production
- Video Editing & Postproduction
- Audio & Sound Recording
- Technical Documentation (SRS, SDD, STD, VR, STP, and RTM)
- Engineering & Technical Writing Support
- Program & Administrative Support
- Commercial Photography
- Marketing & Visual Content Development

Technical Expertise

Extensive experience supporting aerospace and engineering environments, including:

- Systems Requirements Specifications (SRS)
- Software Design Documents (SDD)
- Requirements Traceability Matrices (RTM)
- Test Plans & Validation Documentation
- Process Documentation & Technical Manuals
- FAR/DFARS Compliance, ITAR Markings & Controlled Technical Data Documentation

Experience

Brice Production has successfully delivered a wide range of projects, from brand storytelling videos to high-conversion marketing campaigns.

Mission Statement

To empower brands through powerful visual storytelling by delivering creative, professional, and results-driven video content.

Vision Statement

To become a trusted creative partner for businesses worldwide by setting the standard for innovation, quality, and client experience in video production.
